CAREER OBJECTIVE

To obtain a Software Engineer position in a growth-oriented organization where I can utilize my technical skills, problem-solving ability, and passion for software development while continuously learning modern technologies and contributing to impactful projects.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, JavaScript, SQL

Web Development: HTML, CSS, Bootstrap, Node.js, Express.js, EJS

Database: MySQL, MongoDB

Core Subjects: Data Structures & Algorithms, DBMS, OOPs, Operating Systems, Computer Networks, Software Engineering

Tools: Git, GitHub, VS Code, Linux, Postman

ACADEMIC QUALIFICATION

B.Tech (Computer Science Engineering), IMS Engineering College, Ghaziabad (7th Semester)

Affiliated to AKTU | Expected Graduation: 2027 | CGPA: 8.2/10 (Editable)

PROJECTS

AI-Based Student Performance Prediction System

Developed a machine learning model to predict student academic performance using historical data. Applied data preprocessing, feature engineering, and predictive analytics techniques to improve accuracy.

Full Stack College Management Portal

Built a web-based application for managing student records, attendance, and academic information. Implemented authentication, CRUD operations, and database integration using Node.js and MySQL.

Smart Internship Recommendation Platform

Designed a recommendation system that suggests suitable internships based on student skills, interests, and academic profile. Improved internship discovery through automated filtering and ranking.

CERTIFICATIONS

- Python Programming Certification
- Web Development Certification
- Data Structures & Algorithms Certification
- AI & Machine Learning Fundamentals

ACHIEVEMENTS

- Solved 200+ coding problems across various coding platforms.
- Participated in hackathons, coding contests, and technical workshops.
- Developed multiple academic and personal software projects.

STRENGTHS

Problem Solving • Team Collaboration • Communication • Quick Learning • Analytical Thinking • Adaptability
